

FTFS Tips for Teachers

Please print off a copy of the Résumé and Lexique for each student and go over it with them in class beforehand. It gives an outline of what is happening on stage and highlights the relevant vocabulary so that everyone can enjoy themselves.

As well as impromptu action for students in the play there are scripted student parts. Please print them from the internet, choose the students beforehand and go over the parts with them. There is no need for them to learn the lines off by heart, they can hold the scripts in their hand – it is fun, not a test.

The company will arrive about half an hour before the performance time. If you can have the student actors available at this time the French actors will rehearse with them and put them at their ease.

They will have a simple costume and sit up at the front.
